281. BIDEFORD SKATE PARK ACOUSTIC SCREEN UPDATE

The Major Projects Manager presented the report in detail and explained that the purpose of the report was to update Members on the situation with the acoustic barrier at the skate park in Bideford, and the options being explored within the budget available to obtain the best way forward.

A lengthy discussion followed when concerns/comments raised included:

Ombudsman's Report – in summary the report was committing the Authority to work through the recommendations they have specified which involved some mitigation measures. The Head of Communities & Place gave details of the findings in the report.

Councillor Christie had concerns with having an earth bund as he felt this would create further problems.

Not a statutory requirement to install acoustic barrier. Increased costs therefore not acceptable.

Pros and cons of alternative options considered to achieve the acoustic the properties required.

The Chair called for a proposer and seconder for each of the recommendations:

5a) There was no proposer or seconder

5b) Proposed by Councillor Bushby – there was no seconder.

At this point Councillor Christie raised concerns with flooding on the site and recommended that advice be sought from South West Water.

5c) Proposed by Councillor Brenton – there was no seconder.

5d) Proposed by Councillor Newton and seconded by Councillor Dart.

5e) Proposed by Councillor Christie and seconded by Councillor Brenton subject to the following amendments:

- Councillor Christie recommended an amendment to consult South West Water as the site is in a critical flood risk area.
- Councillor Lock recommended an amendment to put on hold the whole project for 12 months due to financial constraints, noise complaints to continue to be monitored and to continue dialogue with the residents.

It was proposed by Councillor Newton, seconded by Councillor Dart that recommendation 5d) be approved.

(Vote: For 3, Against 5, Abstentions 3)
The motion was lost.

It was proposed by Councillor Christie, seconded by Councillor Brenton that recommendation 5e) be approved, subject to the two recommendations as set out above and -

Resolved:

That the current project be cancelled, and the full proposals be put on hold until funding is available, utilising the capital allocation for other current projects with budget pressures. This would mean the Council would fail to deliver the proposed acoustic solution expected by the complainants. However, the continued rise in material and construction costs could have both significant financial and public perception implications on the Council by users who enjoy the open public amenity that has been provided.

That no build be carried out until consultation with South West Water due to the site being in a critical flood risk area.

In view of the severe financial constraints on the council's budget, the whole project to be put on hold for 12 months and noise complaints continue to be monitored and dialogue maintained with the residents concerned.

(Vote: For 8, Against 2, Abstentions 1)

The meeting commenced at 10am and closed at 11.30am
