8. Do you have any ideas for further improvements in either the format or the content of the Council's Quarterly Business Reports?

Maybe more detail on what actions are being taken to improve performance.

Would like to see more actual year on year figures, gives a better indication of trends.

Make sure information is totally honest. I don't need a positive spin. I need accuracy.

No not at the moment

Looks fine at the moment.

I think that any further improvements, should they be necessary going forward, will become apparent as updated reports are submitted. As such, the present facelift is certainly an improvement.
