		23,000,000						

Investment in the above is subject to the counterparty having credit rating of F1 short term or better as rated by Fitch Ratings Ltd. At the time of investment and subject to counter-party limits.

The maximum single deal size is £3m (note instant access accounts may be above £3m as several transfers can occur).

The maximum holding is £5m per counterparty.

Investments may also be placed with United Kingdom Government Departments, agencies and other UK Local Government Authorities.

Up to £8m may be held from time to time with the council's bankers Lloyds in order to meet financial commitments as and when they are due.

Counterparty Limits during the Global Pandemic

Due to the global pandemic Torridge has paid out millions in grants to local businesses.

The most recent of these (Restart grants and Jan-March lockdowns), were returned to central government during November 2021.

This has meant that during the year, the council has exceeded its counterparty limit with its main banker Lloyds. We are currently holding £8m with Lloyds on an instant access basis, which will be moved to other counterparties within the constraints of cashflow considerations (which will use most of these funds in the run up to the end of the financial year).
